B. In all cases, alternative methods to lights should be considered by all applicants for development to the extent feasible. Such alternative methods may include reflective road markers or lines or motion-sensitive fixtures.
C. The requirements of this Section shall not apply to temporary lighting that is used for emergency purposes or nighttime construction work, or if there is a compelling temporary safety reason that cannot be addressed by another method, or for a special event. Patrol Division Highlights / Other

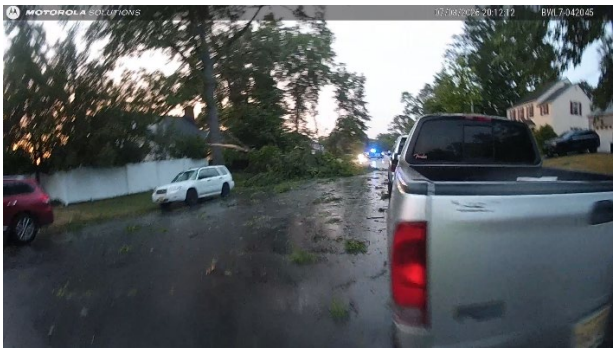
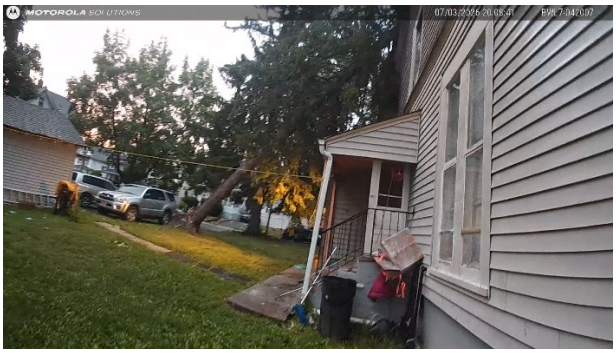
The police department conducted one hundred twenty-one (121) “walking posts” in the downtown business district during the month of July. During this detail, officers engage with the public and local business owners in order to form a closer bond.

On July 1, 2026, officers were dispatched to a convenience store on a report of disorderly World Cup Soccer fans engaged a physical altercation. Two (2) individuals were arrested and transported to headquarters for processing. While the arrestees were being processed, another fight involving individuals connected to the original altercation broke out in front of headquarters. All parties were released with complaint summonses charging them with Disorderly Conduct.

On July 3, 2026, officers responded to multiple areas throughout the borough during a storm that caused trees to come down on houses, wires and parked vehicles. With reports of flooding in streets, officers deployed barricades and took several reports for property damage.





On July 11, 2026 at 2:57 am, officers responded to a report of a domestic violence incident involving a machete, which turned into an arrest for assault and a weapon offense. Officers located the machete and placed the actor under arrest. At headquarters, the incident was screened with the Somerset County Prosecutor Office which authorized a 3rd degree charge for Possession of a Weapon for an Unlawful Purpose and Assault.

While on routine patrol, police stopped a vehicle for speeding in front of Somerset School. After requesting consent to search the vehicle, police located a substantial amount of drugs in the vehicle. The driver was charged with two counts of Possession of CDS, along with 2 motor vehicle summonses. The male was later transported to the Somerset County Jail.

CRIMINAL INVESTIGATION DIVISION

A Sample of Investigations & Arrests

Following an extensive investigation into a fire that began in March 2026 at an occupied North Plainfield residence, detectives ultimately determined that the fire had been intentionally set. Surveillance footage and extensive additional investigative records identified a suspect and probable cause was found for a second-degree Arson charge. In July, members of the Criminal Investigations Division, working in coordination with the Somerset County Prosecutor's Office, located the suspect in South Plainfield and executed the arrest warrant without incident. The defendant was processed and subsequently lodged in the Somerset County Jail awaiting a detention hearing.

The Criminal Investigations Division completed its follow-up investigation into an incident that occurred in June while patrol officers were monitoring an area following several reports of criminal mischief and suspicious activity. Patrol officers encountered an individual wearing a ski mask and operating an electric bicycle in the roadway. When directed to stop, the individual fled from officers and subsequently struck a police vehicle, causing damage to its front fender and driver's door. The individual was taken into custody and found to be in possession of brass knuckles. He was charged with fourth-degree Unlawful Possession of a Weapon and Obstruction, a disorderly person's offense, issued multiple motor vehicle summonses, and was later lodged in the Somerset County Jail awaiting a detention hearing.

The Criminal Investigations Division investigated a report of illegal dumping after a resident observed an individual discard items near a residential area and the brook. The resident confronted the individual and requested that the items be removed, but the individual refused and left the area. A photograph provided by the resident was distributed to officers and shared through the Police Department's social media platforms to assist with identification. Information developed during the follow-up investigation led detectives to positively identify the responsible individual, who was issued a North Plainfield Borough ordinance summons for Illegal Dumping. The subject is scheduled to appear in the North Plainfield Municipal Court in August.

The Criminal Investigations Division investigated a shoplifting incident at a North Plainfield convenience store involving three individuals who selected multiple food and beverage items, concealed merchandise, and exited without making payment. The individuals fled the area in a vehicle immediately following the incident. Through a review of store surveillance footage and vehicle records, detectives identified the vehicle's driver as one of the individuals involved. The identified individual was issued a complaint-summons for the disorderly persons offense of Shoplifting and is scheduled to appear before the North Plainfield Municipal Court in August.

NOTE: We are required by the Rules of Court to include herein a statement explaining that the charges are merely an accusation and that the defendant is presumed innocent until and unless proven guilty.

COMMUNITY POLICING BUREAU

The Community Policing Unit issued twenty (20) first-time alarm activation notifications and six (6) general alarm warnings. Throughout the month, Community Policing personnel participated in eight (8) Summer Teen Evening Program (STEP) sessions, which provides local teenagers with a safe, structured, and supervised environment while promoting positive interaction among youth, police personnel, and community representatives.

From July 6 through July 10, the North Plainfield Police Department conducted its annual Youth Academy. The program provided attendees with direct exposure to law enforcement responsibilities, teamwork, discipline, physical fitness, criminal investigations, patrol functions, and other police-related activities through classroom instruction and hands-on exercises.

The Community Policing Unit also advanced the Department's Special Needs Registry initiative, which provides residents with an opportunity to voluntarily register children or family members with special needs who live, work, attend school, or regularly participate in activities within North Plainfield. The confidential registry is intended to provide responding officers with essential information that may assist during emergencies, wandering incidents, missing-person investigations, or encounters involving individuals who may have difficulty communicating identifying or medical information.

Additional activities during the month included participation in the Safety Committee Meeting, Juvenile Justice Meeting, Garden State Municipal Joint Insurance Fund Commissioners Monthly Meeting, and Community Policing Grant Meeting. Collectively, these efforts reflect the department's continued commitment to youth development, inclusive community services, interagency collaboration, public safety education, and strengthening relationships between police personnel and the residents they serve.

ARRIVE TOGETHER PROGRAM

During the month, the ARRIVE Together officer conducted eleven (11) ARRIVE Together responses and follow-up contacts. His immediate engagement with the program reflects the Division's continued commitment to providing coordinated support, intervention, and access to appropriate community-based services for individuals experiencing mental health concerns.

QUICK RESPONSE TEAM

During the month, the North Plainfield Police Department continued its Quick Response Team (QRT) initiative in partnership with Somerset County Helping Hands and local recovery service providers. The unit conducted two (2) QRT follow-up responses involving individuals and families affected by substance-use-related incidents. During each response, information and assistance were provided regarding available treatment options, recovery resources, and community-based support services.

SOMERSET COUNTY ORGANIZED CRIME AND NARCOTICS TASK FORCE

During the month, the Somerset County Organized Crime and Narcotics Task Force (OCNTF), participated in multiple narcotics-related investigations and enforcement initiatives throughout Somerset County. Our officer assisted with controlled investigative activities, surveillance operations, proactive enforcement, intelligence gathering, and follow-up investigations, including matters having a nexus to North Plainfield.

Task force operations during the reporting period resulted in the apprehension of a suspected narcotics distributor and furthered several ongoing investigations. The officer also followed up on information provided by community members and prior enforcement actions to support the development of additional investigations. Additionally, the officer served as an instructor during the Somerset County Prosecutor's Office Youth Police Academy.

OTHER MATTERS

In accordance with the New Jersey Attorney General's "Handle with Care" directive, division personnel processed four (4) Handle with Care notifications, which were forwarded to the local school district to provide appropriate awareness and support for students impacted by police-related incidents or traumatic events. Detectives also handled three (3) licensing investigations, consisting of one (1) liquor-license transfer, one (1) raffle-license application, and one (1) massage-establishment permit investigation. EMS REVENUE

Revenue is received in the form of insurance payments through direct billing to Federal, State and private insurance providers for medically necessary emergency service. The Department also receives revenue through personal and required insurance co-payments.

A third-party company performs EMS billing for us. The service includes collecting information from patient run reports, invoicing, tracking, reporting, collection and direct deposit into a designated municipal account. The following is an accounting of the revenue received during the past month and year to date totals.

Section 3. DIVISION OF FIRE PREVENTION

Inspection activity is coordinated through the office of the Fire Official. All Borough licenses and permits, which require an inspection by the Fire Department, are performed by the Division of Fire Prevention. Permits and registrations required under the N.J. Uniform Fire Code are also processed and enforced through this division.

Fire Prevention Revenues

Revenue is received in the form of a rebate of 65% of registration fees collected by the New Jersey Bureau of Fire Safety for each life hazard use (LHU) in North Plainfield. This money is returned to the municipality to pay for the enforcement of the New Jersey Uniform Fire Code.

The Department also receives fees for permits that are issued locally for occupancies not required to be registered as life hazard uses, such as multiple family permit fees. We also receive penalty money representing assessments for failure to comply with requirements of the Uniform Fire Code.
